

### **SARS/FASSET - SUBJECT MATTER EXPERT**

SARS in collaboration with FASSET is looking for SME's to assist in developing an Occupational Certificate in Forensic Tax field/industry.

A Forensic Tax Practitioner specializes in investigating, uncovering, and resolving tax fraud, tax evasion, and other illegal tax-related issues. This involves analysing financial records, identifying discrepancies, and gathering evidence to support legal proceedings.

Forensic Tax Practitioners will be required to:

- Lead, manage and conduct investigations within the boundaries of the law to uncover instances of tax fraudulent filings, tax evasion, and other illegal activities related to taxes
- Collate evidence and prepare reports for legal or criminal proceedings to resolve tax disputes between taxpayers and SARS
- Support legal proceedings and represent clients during audits, appeals, and litigation regarding tax.
- Conduct tax compliance reviews and provide advisory services to clients on tax compliance

*NB: Kindly note that this development is VOLUNTARY and there is no financial compensation. Commitment from start to end of development is required as this will assist with a good qualification content.*
